EDUCATION

2023-2025

ACADEMY OF INTERACTIVE TECHNOLOGY

- Bachelor of Game Design

2022-2022

UNIVERSITY OF WOLLONGONG

- Bachelor of Pre-Medicine

SKILLS

- Unreal C++ and Blueprint
- Advanced Unreal Materials
- 3D Modelling and rigging in Maya, ZBrush and Blender
- Texturing in Substance Painter
- 2D art in Clip studio
- Terrain Generation in Houdini
- Level Design

ATTRIBUTES

- Strong attention to detail
- Self motivated and eager to learn
- Highly articulate and communicative
- Incredibly passionate

PROFILE

I'm a graduate game developer, with a passion for making fun, unique games. My philosophy for anything is "If you do it, do it different." I thrive when working with others, I love being challenged and love learning new things.

EXPERIENCE

- **Tech Art** - Created a custom environment with custom stylized grass, trees, foliage and water Shader.
- **Multiplayer Game Dev** - Created a unique, 0 gravity stylized shooter with online networking through epic.
- **Console Game Dev** - Created a simple hack and slash game for porting onto PS5.
- **Cinematic Animation** - Developed strong skills in the unreal engine sequencer, Metahuman and motion capture
- **Character Creation** - Designed, Sketched, sculpted and rigged character for rendering in Unreal using a custom Cell Shader. Created a custom control rig for animation
- **Forge Project** - Optimized world partition for a small, Open world platformer, written in C++ with scripting exposed to blueprint. Also included a custom interaction system, a GPU player tracking system to make all foliage reactive, a modular input buffer system that works over enhanced input, Coyote time, level scripting tools, custom player movement and more.

WORK EXPERIENCE

- **Sweaty Chair** 6 MONTHS
QA Intern
 - Learned the QA workflow and it's importance
 - Familiarized myself with Unity and C#
- **Footlocker** MAR 2022-PRESENT
Sales Associate
 - Managed Teams to keep group work running efficiently
 - Strongly Developed my people skills, and co-worker communication skills
